CABLE INSTALLER

**THE MOST EFFECTIVE  
WAY TO INSTALL CABLE**

**To Order Call: 0416 392 999**

# WOMBAT

The wombat was designed to be a effective and cost efficient way to install single cables in duct. The development team has been in the industry for over 50 years, they knew there was a better way to install cables without the use of winches and a large labour component. This new system only requires two people to install cable. This is done by pushing the cable, saving time by minimum set up , you do not pull through rope and then winch wire to draw in cable. Just position wombat and install.

# WOMBAT

The wombat can be used at any angle For the hard to get into places

The wombat has been designed with little maintenance required, simple but very effective, Allowing most trade personal to operate and maintain for years of trouble free use.

## Wombat power pac requirements

The wombat can be powered by any hydraulic drive

**Mini loader**

**Skidsteer**

**Backhoe**

**Excavator**

**Pto**

**Or electric option**
